Course Descriptions

YEAR 1, SEMESTER 1

16SMGB110 - Business Computer Applications

(3 Credit Hours)

Course Description

In this unit, students learn about the role of technology in business. It is a practical unit conducted in the computer laboratory using the Microsoft Office Software. Students will be able to achieve operational competency in Word, Excel, Power-Point, Access and Outlook and demonstrate the application of the standard, as well as advanced features.

Pre-requisites: None

16SFSP111 - English for Business

(3 Credit Hours)

Course Description

This unit is designed to meet the needs of students in the School of Business to research, read and write extensively. It aims to equip them with the research, reading and writing skills and strategies that are necessary to determine relevant information in the genres common in their field; read them to identify and synthesise relevant ideas; and incorporate these ideas into an extended piece of writing that clearly shows the critical stance of the student/writer, while adhering to the formal requirements of text structure, format and referencing. This unit uses an integrated process writing and genre approach. The writing cycle begins with models of the genre, a description of the key linguistic features and joint negotiation of a text with the instructor. The student then independently writes the particular genre following the steps of pre-writing, writing, revising and editing the final product.

Pre-requisites: None

16SMRB114 - Marketing Principles**(3 Credit Hours)****Course Description:**

Students will learn about the role of marketing in domestic and international business and how marketing has influenced consumption of goods and services. This unit will provide an understanding of the historical development of the discipline of marketing as distinct from management. Students will be exposed to a range of marketing activities within large and SME firms and will be able to identify the principles and frameworks used to make better marketing decisions. Students will be able to apply the marketing concepts to profit and non-profit organizations and distinguish between the marketing of goods and services.

Pre-requisites: None

16SMGB112 - Management Principles**(3 Credit Hours)****Course Description:**

This unit provides an introduction to managing in organizations. The unit includes the analysis of the evolution of management as well as the analysis of current managerial practices, styles and approaches. Students will be exposed to approaches to the management of organizational operations, as well as the nature of managerial work such as planning, organizing, leading and controlling. The unit critically examines the management of the organization's internal and external environments and the structural control of organizations. Theories of management will be introduced.

Pre-requisites: None

16SMGB113 - Business Communications**(3 Credit Hours)****Course Description**

Communication skills are essential to the realization of any employable person in today's competitive organizational environment. Those able to communicate an idea through interpersonal communication, technology, and writing will be better ready to manage themselves properly in an organizational setting. Students will be engaged in the business writing process, enabling them to plan, design, and ultimately author some documents applicable to today's organizational environment. Students will compose cover letters, resumes, routine and non-routine letters, and job acceptance letters in preparation for the job search process. Students will also learn how to function cohesively and communicate as a team through delivering a persuasive group presentation. Finally, unit members will learn how companies use technology such as social media and other tools to communicate better internally as well as with customers. By the completion of this unit, students will gain an understanding of business etiquette in domestic and international environments.

Pre-requisites: None

YEAR 1, SEMESTER 2

16SMRB120 – Economics I

(3 Credit Hours)

Course Description:

This unit is an introduction to economic concepts and basic economic theory. The unit is split between the study of microeconomics, which focuses on the decision making of individual consumers and firms and macroeconomics which focuses on aggregate level economic questions such as inflation, unemployment, and interest rate changes.

This unit enables students to exercise their creativity, innovation, commercialization, entrepreneurship and business insight. It provides a structured opportunity to research, develop and present a business/strategic plan (or workplace project or plan) that will stand up to the standards expected by an angel investor or other funding providers. Students will learn how to create a professional business and operational plan that they can use in their company/workplace.

Pre-requisites: 16SMRB120 – Economics I

16SMGB122 – Introduction to Business Law

16SMGB215 – Service Management**(3 Credit Hours)****Course Description**

The goal of service management is to maximize service supply chains as they are typically more complex than the supply chain of finished goods. This unit explores the dimensions of successful service firms. It prepares students for enlightened management and suggests creative, entrepreneurial opportunities. Outstanding service organizations are managed differently than their "merely real" competitors. Actions are based on entirely different assumptions about the way success is achieved. The results show not only regarding conventional measures of performance but also in the way employees perform and deliver services that result in the quality of customer satisfaction. The unit will cover the service encounter, and how to blend marketing, technology, people, and information to achieve a distinctive competitive advantage.

Pre-requisite: 16SMGB124 – Event Management

16SMGB212 – Business Internship I**(3 Credit Hours)****Course Description**

This unit defines the performance outcomes, skills and knowledge required to manage and improve own performance and professional development. Emphasis will be placed on setting and meeting priorities, analyzing information and using a range of strategies to develop competence. The unit also includes an understanding of job markets and trends, as well as an overview of the various sectors of the economy. Students will develop skills required to succeed as professionals, including critical thinking, analysis, personal development for job readiness and employability.

Pre-requisites: 16SMRB120 – Economics I

16SMGB122 – Introduction to Business Law

16SMGB124 – Event Management

YEAR 2, SEMESTER 4**16SHRB221 – Change Management****(3 Credit Hours)****Course Description**

This unit defines the performance outcomes, skills and knowledge required to address the importance of managing change in various settings. It is an introductory unit for students to gain an understanding of the concept of change, the necessity for change, and an awareness of the impacts of change on organizations and individuals. The unit also highlights the ways in which change can be successfully brought about in an organization and how to become a successful change agent.

Pre-requisite: 16SMGB214 – Business Leadership

16SMGB222 - International Business**(3 Credit Hours)****Course Description**

This is an introductory unit designed for business majors who will ultimately be engaged in business affected by global environment. Basic understanding of the global business environment is essential for business students, who will seek employment in both the private and public sectors. This unit will consist of the fundamental areas of international business. The unit explores the interrelation of government and business across borders and the economic dynamics of countries/regions, including a general overview of the international monetary system, international trade and foreign direct investment. Students will be exposed to the strategy of international business and review cases studies that characterize the issues involved in today's global world. The major topics of global business will be discussed to give students a working vocabulary and basic level of knowledge and skills involved in the current global business.

Pre-requisites: 16SMGB214 – Business Leadership

16SMRB211 – Business Planning

16SMGB224 - Small Business Plan**(3 Credit Hours)****Course Description:**

This unit teaches students how to develop a professional business plan for a new or existing small business. It addresses facets of the business plan such as the competitive environment, developing venture concepts and growth strategies, creating marketing approaches, building a cohesive management team, launching operations, and developing financial projections.

*Pre-requisites: 16SMRB210 - Business Research
16SMRB211 - Business planning*

16SMGB223 - Innovation and Entrepreneurship**(3 Credit Hours)****Course Description**

This unit aims to provide students with entrepreneurial skills such as idea generation, opportunity identification; market and competitor analysis. It applies to students who wish to pursue a career focussed on managerial responsibilities that aim to build more efficient work environments and or create new businesses. The unit covers continuous improvement and innovation – both concepts support the model of a learning organization. Students will not only learn the theoretical aspects but will also cover topics such as building corporate culture and values.

Pre-requisite: 16SMRB211 – Business Planning

16SMGB220 - Business Internship II**(3 Credit Hours)****Course Description**

This unit covers the professional experience, through training in the execution of real-life business projects. The practical training aims to develop business skills for students to foster an awareness of job requirements and enabling them to identify and narrow down choices. It will also provide students with job placement opportunities after graduation if able to demonstrate competency during the internship. Students are expected to complete 80 hours of work at the internship site.

Pre-requisite: 16SMGB212 – Business Internship I
